

Book 1A Unit 1 (Chapter 1) Happy Preview (1)

Grade: _____
Date: 18th September 2025

Module and Topic: Book 1A Unit 1 Ch.1 Hands-on and Minds-on Science

A. Learning Objectives:

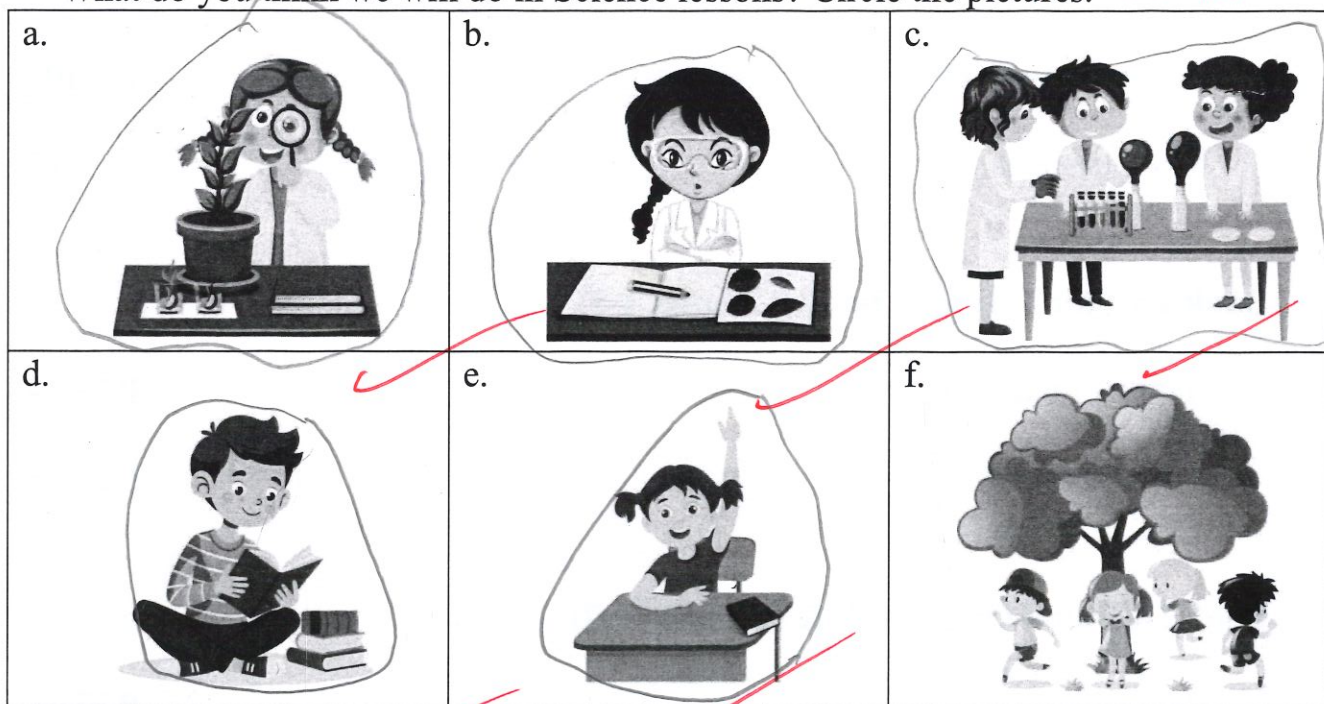

1. What do we learn in Science?
2. How can we learn about Science?

B. Preview method:

★ Activity 1

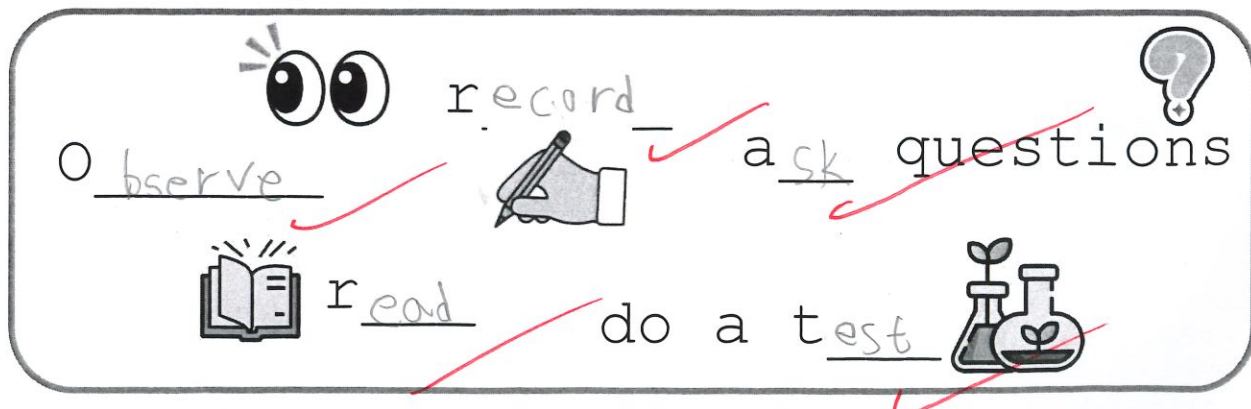

What do you think we will do in Science lessons? Circle the pictures.

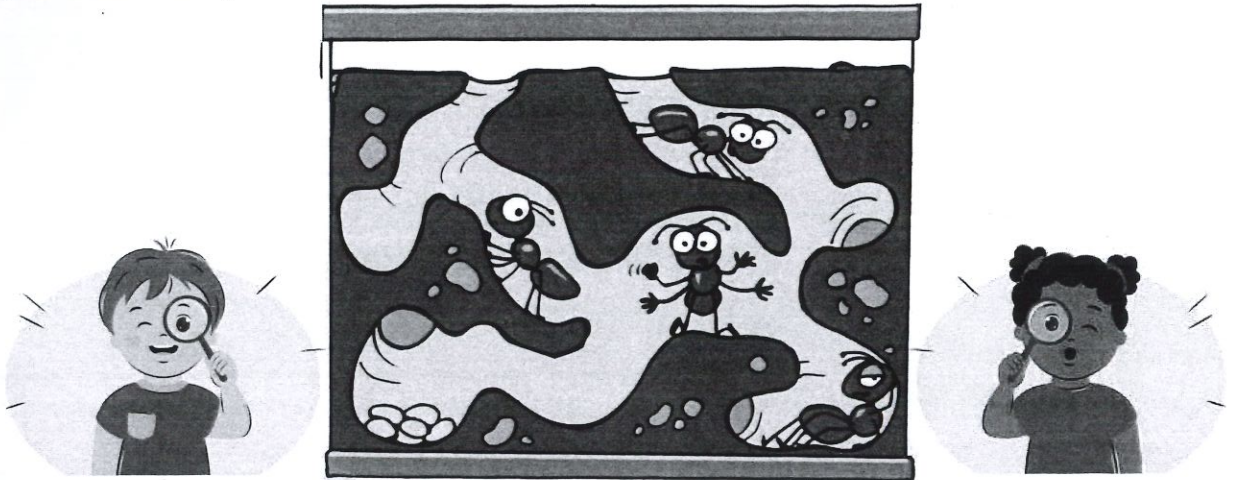

Activity 2

Observe the above pictures, how can we learn Science well? Decode the words below.

Activity 3

Some children are looking at an ant farm in the classroom. Can you ask some questions to help them learn more about nature?

	Step ①: Circle a question word to start the question	Step ②: Write the remaining part of the question
E.g.	What / Where / When / Who / Why / How	body parts do ants have?
1.	What / Where / When / Who / Why / How	do ants talk to each other?

**C. Extension (Higher Order Thinking):

In Science lessons, we often have to observe carefully, ask questions, do tests and analyse the test results. What should we pay attention to during Science lessons?

Put the numbers representing the things we should do and those we should not do in the correct boxes.

1. Listen to teachers carefully.	2. Talk loudly or distract others.
3. Record the results honestly.	4. Be brave to ask questions.
5. Cooperate with your classmates well.	6. Touch or play with equipment without permission.

★ Good understanding of the rules we should follow.

✓ DO	✗ DON'T
1, 3, 4, 5	2, 6

There are a lot of equipment in InnoHub. Should we run when we have lessons there?

⇒ Yes / No. (circle your answer)
