Purja Nishma

23rd April, 2023

Wet

It was wet today so I stayed at home all day.

In the morning I tidied my bedroom and had my breakfast. I was happy. I was happy.

In the afternoon I was bored so I watched TV. After that I was tired so I read a book and played computer games.

In the evening, I had dinner with my family and listened to music.

Today I had a happy day. By Nishma.

Mike's Trip in the Time Machine

Rai Ryan

Mike's Trip in the Time Machine

Mike wanted to go to Germany in 1842. He used the time machine to go there.

Suddenly Mike saw a scary man who had a long beard. He felt a sudden urge to run. Mike screamed for help but no one helped him. He almost fainted.

The man said, 'Don't run. I will help you.' Mike felt surprised and they became best friends. They travelled around everywhere in Germany. Mike learned lots of new things about Germany. He was excited.

The Best Restaurant in the World

by 4A Niubeen

Last Sunday was my birthday. My dad, my mum, my brother Ethan and I went to Fairy World Restaurant. We went there to have a party to celebrate my birthday. I was so excited about it.

When we got to the restaurant, I was even happier. The restaurant has great view and it had beautiful decorations. The waiter brought us to a table next to window and gave us the menus. There were a lot of things on the menu. There were French fries, hamburgers, pizza, spaghetti, macaroni, chicken wings and ice-cream. After our discussion, we finally ordered a big plate of French fries, four hamburgers and ten pieces of chicken wings.

After a while our food arrived. We were shocked when we saw the food. Half of the French fries were burnt! When we tried the chicken wings we found that were not fully

cooked! We did not want to try the hamburgers anymore. We were so sad and angry. My birthday was ruined!

In the end we left the restaurant and talked about how bad the food was. Mum suggested to go to the supermarket and buy something to make our own dinner. Mum made spaghetti with meatballs and baked some chicken wings. They were more delicious than the food at the restaurant. After dinner we had a birthday cake and we watched a movie together. My home is the best restaurant in the world!

Advice on Healthy Diets

P.4B
Tiwari Navya

TD NAVYA

Po Kok Primary School Newsletter Advice on Healthy Diets

Some food types are good for us and others are not. We can make good use of the food pyramid to help us eat more healthily. We need to eat more of the food at the bottom and less of the food at the top.

Grain products are good for us. They can give us energy to help us run and jump. You ought to eat more bread, rice, cereal, noodles and pasta. Fruit and vegetables are also good for our health. They have lots of vitamins and minerals to keep us healthy. Fresh fruit is better than fruit juice because fruit juice is often high in sugar.

At the top of the food pyramid are the food groups that we should eat less.

Eating too much fat and sugary food can make you fat. Too many sweets are also bad for your teeth.

Rapunzel and the chef

Rapunzel and the chef

By Hiya 4C

△△ Once upon a time a witch put a beautiful girl in a tall tower. Her name was Rapunzel. One day Rapunzel saw a chef and shook her long hair out of the window. The chef climbed up her hair.

△△ "I'm here to rescue you," said the chef. "Oh!" exclaimed Rapunzel. "Thank you! Someone finally came to rescue me. How often

do you wash your hair?" Rapunzel asked. The chef replied, "I wash my hair once a month because I am too busy cooking for everyone." "You ought to wash your hair every day so it can smell nice. It can be clean and fresh too. Maybe you can come back with your hair being nice and clean," said Rapunzel. "Ok. I'm going to wash my hair every day now. I will be back. Then my hair will be nice and clean," said the chef.

△△ The next week, the chef climbed up Rapunzel's hair again. He walked towards Rapunzel. "Ugh! your fingernails are too long. How often do you cut your fingernails?" asked Rapunzel. "I cut them once a week..." started Rapunzel.

△△ But this time the chef said, "No! I am not changing anything for you." Then he cut off Rapunzel's hair. But that was the only way down...

Good behaviours

P.5A

Parajuli Mayon

Good behaviours 5A Mayon

Manners are very important in life. If you are nice and help people around you. This article will give advice on having good manners at home and in public places.

At home, we should help our family with the housework. This is a great way to show that we care about our family members. We can help by making the house look clean and watering the plants because they are living things too! One thing we shouldn't do is shout, fight, and quarrel with our family as it can damage our relationships. We should try to talk calmly to our siblings and listen to what they have to say. Having good manners at home would improve our relationships with our parents and siblings.

When we are in public places, we should have good manners too. When we walk on the streets, we should never spit because that is filthy. It will dirty the streets, and everyone will be disgusted at us. At the bus stop, we should wait patiently.

Nobody likes to hear someone whining since it causes disturbances to the people waiting in line. At the restaurant, we shouldn't shout at a waiter. They are working very hard at their jobs too! Instead, we should speak politely to them, especially when we are making requests. We should have proper manners no matter where we go.

Manners are crucial in our daily life. If we are kind and help others, we would receive respect by the people we know. If we have bad manners, nobody would like us. If all children could put on their best behaviours, the world would be a more harmonious place.

Dr Opps

P.5B
Rai Yuzan

Dr Opps

Dr Opps, a careless yet creative inventor owned a laboratory in New York City. He has been working on his projects nonstop but one day he realised that none of his inventions were specifically designed to help people. Therefore, he decided to build a robot that could help doctors and patients all over the world.

Dr Opps came up with a plan. He used wood, metal, glass, rubber and string to make the robot. After hundreds of hours, he had finally built the robot. However, something was wrong with the robot. He put one of the legs in the upper part of the body by mistake as he was always that careless. Dr Opps tried to fix it but he failed to figure out any possible solutions. He was devastated but at the same time he didn't want to give up so he called his friend, Dr Careful for help. Dr Careful came over to check on the robot. "The leg is in the wrong position" said Dr Careful. "I know, I wanted to fix it but I don't know how!" replied Dr Opps frustratedly. Dr Careful then proceeded to fix the robot together with Dr Opps. Although

By: Yuzan (P.5B)

Dr Opps

fixing the robot was challenging, they managed to fix it successfully. The robot could finally walk and run properly. Dr Opps thanked Dr Careful for his selfless help and they coded a program for the robot so it could run and help doctors and patients in hospitals.

After years of development, the robot was released as DR-31 and it continues to contribute to the medical sector by helping doctors and patients in clinics and hospitals.

My Favourite Place in Hong Kong

P.5C

Thapa Magar Ningwa Hangma

5C Ningwa

My favourite place in Hong Kong
My favourite place in Hong Kong is Dragon Centre. It's in Sham Shui Po. It's my favourite place because I love shopping and the food there is great!

I usually go there by MTR. I take the MTR because it's convenient and cheap. It takes twenty to thirty minutes to travel from my home to there. I enjoy shopping there and play some games in the arcade there.

People can also take a taxi to get there. I suggest people to shop there because there are many different stores such as beauty stores, boutique for clothes and shoes. I suggest them to stay there for two or three hours. It is a place perfect for children, families, friends and visitors who are looking for a relaxing weekend.

An Accident

Sunny

24th May, 2023

Today was a sunny day so I went to the park with my siblings and my mom. My little brother asked if me and my sister wanted to play tag and we said yes.

My mom was sitting on a bench using her phone while me and my siblings were playing. My sister was chasing me and my little brother around the park when I fell over and twisted my ankle.

My sister and mom helped me get up and we sat on a bench. My mom called the ambulance and a few minutes later, the ambulance arrived. I went on the ambulance with my mom. We arrived at the hospital and they put me on a bed. I was lying down when the nurse put a cast on my leg.

I took a rest and felt much better.

It was an unlucky day but I was grateful that my mom and my siblings were there for me.

Eric's New Height

P.6A
Butt Hannah

Eric's New Height By 6A Hannah

Long ago, there was a little boy named Eric. Eric was a very kind and helpful kid. Every weekend he would visit his grandma to take care of her and to also help do some housework. One day, his grandma had to move houses and Eric volunteered to help. There was a very big truck outside grandma's house. It was to move all the furniture to her new house. One by one, Eric started to move the boxes into the truck while his grandma was resting inside. While he was carrying a very heavy box, he accidentally tripped on a rock, causing him to drop a bottle on the ground. He started to panic because he was afraid his grandma would be angry for breaking her stuff. Just then a genie appeared out of nowhere! "Hello Master! You have one wish but you must choose wisely!" said the genie. "You're joking right? This can't actually be real!" questioned Eric. "Master I just came out of a bottle, of course I'm real!" laughed the genie.

After thinking about it long and hard, Eric finally up his mind. He wanted to be taller! "Taller? Are you sure about that? Out of all the things you could wish for?" said the genie. "Don't worry! I'm sure about it!" laughed Eric. "All right then, your wish is granted!" replied the genie. Slowly Eric started to grow! "This feels great!" shouted

Eric as he was growing. But he was starting to get worried as he wouldn't stop growing. "Um, genie? Could you please help me?" asked Eric. "I'm afraid I can't Master! You have already used your wish!" said the genie. After a few minutes Eric finally stopped growing! He was as tall as a tree! "When I asked to be tall I didn't want to turn into some kind of giraffe!" shouted Eric. "You have to turn me back to normal!" "Don't worry! I know someone who can help us. The wise wizard!" said the genie. "But to meet him, we need to travel very far. You might want to tell your grandma about this." "My grandma will probably think we are crazy or something. Let's just hurry and set off now so we can come back quick!" suggested Eric. "Okay then, let's go!" said the genie.

Soon after the discussion, they quickly left to see the wise wizard. They had to walk through a very big and wide field, swim through a very long river and climb up a very tall mountain! "Are we there yet? My legs feel like spaghetti!" complained Eric. "We are almost there Master! Hang in there!" said the genie. After they walked and walked and walked, they finally arrived at the wise wizard's house! "Finally! We are here! That felt like a whole workout!" exclaimed Eric. "Come on Master! We didn't come here to waste time. Let's go!" said the

genie. They knocked on the door twice but no one answered. 'Hello? Is anyone home?' asked the genie. But again no one answered. They both decided to just go in. 'Wow! This place is huge!' shouted Eric. 'Oh! What's this?' 'It seems like a note,' answered the genie. 'It says that the wizard went on a vacation!' 'What! No! That means we have wasted our time! And I'm never going to be normal sized again!' cried Eric. Eric was devastated. He couldn't turn back to normal now. 'I guess I just have to go home now. Thanks for the help but you can go back to your magic bottle,' said Eric sadly. 'Wait! You can't go home sad after travelling almost half of the world! I mean just think about all the things you could do with your new height. You could help your grandma get things from top shelves and high places or reach light-bulbs and other items without a step-stool!' said the genie. 'Well I guess being tall isn't that bad. Thanks for all your help genie! Now let's go home before grandma notices!' laughed Eric. 'For how long we have been gone! Yeah I'm pretty sure she has noticed already.' chuckled the genie.

A day I will never forget

P.6B
Gurung Ryan

A day I will never forget

I will never forget the day when I scored my first goal in a football match. The match was tough because the opposing team players were very experienced. I was extremely surprised when I scored a goal, and this event made my entire day very memorable, giving me a unique and great experience.

It happened on 28th January, 2023, at Wan Chai Sports Ground. My team, Wan Chai, played against the Central and Western Team. It was an 11 versus 11 game, and the weather was scorching hot, with temperatures reaching 33°C and a hot weather warning issued. Early on in the match, a member of the opposing team got hold of the ball and scored a penalty, putting us at a disadvantage. The Central and Western Team had possession of the ball for the majority of the game, which worried my team coach, my teammates, and me.

Finally, during half-time, my team and I decided to step up our game and use the Tiki-Taka strategy after the break. This strategy helped us gain possession of the ball, and I finally scored a goal. After I scored, all my teammates ran towards me and gave me a hug. The match ended in a tie, and both teams were happy and satisfied. My goal helped my team move up the roster and onto the next round. Hearing this news, I was beyond happy and grateful to my coach, my teammates, and for the overall experience.

Save the sharks

By W. Shark

I am a friendly shark and I am writing because we are facing major problems.

The first problem we are facing is shark fin soup. You keep catching for our fins. Therefore we will die because of blood loss. We will become extinct unless you stop eating shark fin soup.

The second problem we are facing is ocean pollution. You keep dumping rubbish into the ocean. Therefore we will become ill and die. We will

become extinct unless you stop dumping rubbish into the ocean.

The third problem we are facing is prey loss. You keep overfishing for fish in our habitats. Therefore we won't have enough fish to eat. We will become extinct unless you stop overfishing for fish in our habitats.

I hope you take action before we all get extinct.

by Pun Ryan 6C
